OTAVA

OTAVA CLOUD

We do cloud, so you can do you.

Otava Cloud is a simple way to enable bold business transformation, even in data-sensitive environments. Built on VMware's Cloud Director, Otava Cloud gives enterprises the power to innovate and partners the tools to efficiently expand their cloud offerings, all within a framework of robust security. Available in single or multi-tenant as well as managed and self-managed options, Otava's purpose-built cloud infrastructures promote cost optimization, improved network performance and strengthen business resiliency postures. View and manage your single or multi-tenant cloud environment with a simple user interface, and rely on Otava's people-centered support team, available 24x7x365, whenever you need assistance. Otava Cloud empowers your business to focus on the things you do best – while we focus on cloud.

Otava Cloud includes:

- Role-Based Access
- Integrated Veeam and VMWare Tools
- Multi or Single-Tenant Options
- Self-Service Interface
- Compliance Baked-In
- Multi-Tenant Resource Pooling
- And More!

What can you expect from Otava Cloud?

- **Optimized IT Spend**
  Pay only for what you need each month to reduce wasted spend on unused resources and enjoy transparent reporting on your environment's health and performance.

- **Reduced Physical Space**
  Virtualizing IT systems frees up space that was previously dedicated to housing and maintaining servers, switches and other IT hardware, and frees up capital.

- **Improved Agility**
  Provision additional resources with a few simple clicks to respond to fluctuations in market demands and scale quickly when needed.

- **Reduced IT Capital Expenditure**
  Eliminate costly investments in IT hardware by moving to a pay-as-you-go operational expenditure (OpEx) model.

- **Peace of Mind**
  Protect business data by hosting it off-site virtually to ensure continuity in the event of a catastrophe.

- **Compliance**
  Satisfy industry requirements and trust that your data is secure by hosting workloads in Otava's compliant cloud.

"Otava's hybrid cloud solutions are fully managed by their team of experts, which gives us the confidence that we will avoid any potential costly disruption to our business and frees us up to focus on delivering excellent service to our customers."

Michael Franklin, PhD.
Director of IT **EVANS DISTRIBUTION SYSTEMS**

Otava Cloud Key Benefits:

- **Scalability -** Quickly grow or shrink your cloud workloads without purchasing any hardware to effectively respond to market demands.

- **Geo-Diversity -** Select from over 15 data centers strategically located across the globe to achieve extensive redundancy.

- **People-Centered Support -** We're not a 1-800 number. Get access to Otava's expert-driven Support Team, available 24x7x365, served by real people who know you by name, not your IP address.

- **Environment Transparency -** Instantly gain visibility into your system's health and performance.

- **Self-Service -** Manage your own environment using a single pane of glass to provision and consume cloud services, including 3rd-party services and cloud provider-built services.

- **Easy Workload Migration Across Virtual Data Centers** Backup, evacuate, or replicate VMs or entire datacenters in a few clicks to a resilient VCD-powered cloud.

## You're a perfect fit for Otava Cloud if...

...You struggle to effectively adjust to market fluctuations.

...You have an on-premises environment that is not replicated anywhere off-site.

...You're paying for unused resources in your on-premises environment.

...You'd like to move from a capital expenditure (CapEx) model, to an operational expenditure (OpEX) model.
