

CLOUD MIGRATION SERVICES

Faster. Easier. Simpler. Cloud Migrations.

Accelerate your Cloud Journey with our simple, fully managed cloud migration service. Say goodbye to the headaches of long, complicated cloud migrations and let our experts be your trusted guides to the cloud. Our experienced project managers will give you clear milestones that are easily tracked so you stay on time and under budget.

Minimize risk and disruption to your business with these great features:

- Otava dedicated project manager and cloud experts guide you through the entire migration process
- Customized migration plan and timeline to meet you and your client's specific needs
- Multiple migration methods; choose the best option for you
- Deploy your environment fast with a smooth transition, saving costs and accelerating time to revenue
- Flexible testing to minimize risk and potential downtime
- No additional cost to you for the migration tools!

“ The migration to Otava went like clockwork, and we now have real-time access to information that allows us to be transparent and responsive to our customers, who have indicated they're experiencing a marked improvement in performance. ”

Makoto Niimi
IT General Manager
AISIN

7 Step Simple, Fully Managed Migration Process

Our process delivers a repeatable, disruption-free migration of live workloads.

STEP	OTAVA	YOU
Meet to discuss the environment including requirements and timelines	X	X
Kick off call for the migration project	X	
Build migration plan with timelines	X	
Install remote agents		X
Initiate migration with continual monitoring and migration updates	X	
Migration completion with validation testing	X	X
Final cut-over	X	X
