

OTAVA® Business Resilience

Continuity solutions designed to prevent and protect against unforeseen events

The number one resource for your business is data. Threats to that data are everywhere and constantly shifting. Cyber events like malicious attacks, human error, and natural disasters impact every aspect of your business. Downtime is costly and has lasting effects. Be prepared for any cyber event with the OTAVA suite of Business Resilience solutions. OTAVA takes protecting your data seriously, providing the latest Security, Backup and Disaster Recovery solutions backed by human-powered intelligence and insight. Our experts will create a fully-managed resilience plan tailored to your business and compliance needs, giving you peace of mind.

- **Solve Resource Gaps**

Let us worry about tech updates and interoperability.

- **Peace of Mind**

Have certainty that a cyber event won't stop business operations.

- **Overall Resilience Strategy**

Get solutions from a single source.

- **Compliance**

With OTAVA, compliance comes standard. It's ingrained in everything we do.

OTAVA® Business Resilience Solutions and Services

Disaster Recovery (DRaaS)

Our simple, secure, and cost-effective disaster recovery and cloud migration services are built on industry-leading technologies and designed to meet your RPO/RTO requirements.

Backup (BaaS)

Experience fast, secure, and reliable backup for virtual, physical, and cloud-based workloads. It's your backup, your way with full scalability based on your needs.

Data Protection (DPaaS)

Protect your critical assets with powerful data protection for databases and hybrid workloads. Minimize downtime and rest easy knowing your data is protected and available in the event of a catastrophe.

Security as a Service (SECaaS)

OTAVA provides a defense-in-depth approach to security with safeguards that encompass all people, processes, and technologies, all while staying ahead of the evolving cybersecurity landscape.

What can you expect from OTAVA® Business Resilience Solutions?

- **Purpose-Built Solutions**

OTAVA's team gets to know your business, environment, and security needs, and creates a custom resilience strategy.

- **End-to-End Protection**

OTAVA has you covered with a complete business resilience strategy with security, backup and disaster recovery solutions.

- **Protect and Detect**

Your company's critical data is defended and all potential threats are swiftly addressed.

- **Respond and Recover**

Threats are dealt with and recovery is quickly executed, minimizing your downtime.

- **Fully-Managed Solutions**

Our experts monitor your environment around the clock to safeguard, identify, and defend against any threats from outside or within.

- **24x7x365 Total Security Support**

We are here when you need us.

- **OTAVA Expertise**

We stay on top of technology, so you don't have to. We manage updates, interoperability, and the latest threats to keep your resilience strategy running smoothly. We also regularly test against security, backup, and recovery systems to assess vulnerabilities and effectiveness.
