

OTAVA[®] Company Overview

People Empowering Possibility.

OTAVA[®] is a global and recognized leader in delivering secure multi-cloud solutions with a personal touch. Its extensive portfolio is powered by world-class technology partners, backed with expert intelligence, and tailored to help businesses and service providers achieve their individual goals while protecting mission-critical data. With its flexible solutions, OTAVA supports critical business solutions for multi-cloud infrastructure, business resilience and intelligence and insight, including multi-cloud, advanced security, colocation offerings, and professional services. OTAVA empowers its clients with everything they need to thrive in the cloud and stay focused on what they do best.

OTAVA's Approach

People-Centered

Human relationships and expertise are at the core of everything we do. Technology and people together.

Purpose-Built

We design cloud solutions that simplify the complex and are tailored to meet your individual business goals.

Protection-Minded

Security is on your mind – ours too. We give you peace of mind in compliance, continuity, recovery, and data safety.

Potential-Focused

We exist to help you reach your business potential and are dedicated to growth that meets your needs.

Our Services and Solutions

- **Multi-Cloud Infrastructure**

OTAVA has cloud solutions engineered for success. We don't believe in "one-size-fits-all" cloud solutions. At OTAVA, we actually take the time to know your business and tailor the best hybrid cloud strategy to meet your needs and bottom line.

- **Business Resiliency**

OTAVA doesn't just provide world-class security. We offer a suite of cloud data protection services backed by industry leaders, delivering total confidence and peace-of-mind in compliance, continuity, recovery, and data safety.

- **Intelligence and Insights**

We're cloud experts, so you don't have to be. We bring the best of technology and people together to provide you with insights and intelligence that take your business further. We view ourselves as part of your team and care about your goals – seeking out new innovations and ideas to help you reach them.

Industry-Backed Expertise

Powerful solutions that take your business further.
